

NOTES:

1. Drill Profile is viewed from SOUTH to NORTH
2. Drill profile has been "averaged out" to accommodate reaming process
3. Ground level changes are based on estimated levels and do not take into account obstructions and topography
4. Where indicated, depths are accurate to current ground level (at time of installation 24-July-2012)
5. When excavating/ working in the vicinity the drawing is to be used as a guide only
